Phoebe's wedding gift for Chandler and Monica finally arrives: A video arcade game machine, Ms. Pac Man.

Chandler plays all day, fills the top scores, and spells dirty words with the initials.

Then they have to try to clear them off, because Ben's coming over to play.

Rachel misses dating, so Joey offers to take her out and show her a good time.

They have a great date, and at the end of the night Joey realizes he's starting to fall for her.

The filet is considered to be the most tender cut of beef, and one of the most expensive. Despite its hefty pricing, filet mignon is ordered by many at restaurants the world over. The average cow provides no more than 4-6 pounds of filet per animal. Because the muscle is non-weight bearing, it receives very little exercise, which makes it tender. The filet can be cut into 1-2 inch thick portions, then grilled and served as-is. One can also find the filet in stores already cut into portions and wrapped with bacon.

**Waitress:** There's a side of steamed vegetables.

The borough of Queens is coterminous (adj. 连接的) with Queens County, which is also the most ethnically diverse county in the

United States. As of the 2000 census immigrants comprise 46% of its residents. It is estimated that by 2010 the majority of its population will be foreign born. With a population of 2.2 million it is the second most populous borough in New York City and the tenth most populous county in the United States. Queens was established in 1683 as one of the original 12 counties of New York and was named for the then-queen consort (n. 君王的配偶), Catherine of Braganza, wife of Charles II. The borough is often considered one of the more suburban boroughs of New York City. Neighborhoods in eastern Queens have a look and feel similar to the bordering suburbs of western Nassau [n. 拿骚(巴哈马首都)] County. In its western and central sections, however, Queens is home to many urban neighborhoods and several central business districts. Long Island City, on the Queens' waterfront (n. 水边地码头区) across from Manhattan, is the site of the Citicorp Building, the tallest skyscraper in New York City outside of Manhattan.

He was bitterly attacked by muckraking (v. 揭发丑闻) journalists; his company was convicted in the Federal Court of monopolistic practices and broken up in 1911. He gave up active management of Standard Oil in the late 1890s, while keeping a large fraction of the shares.
