E.T. the Extra-Terrestrial (adj. 地球之外的) is a 1982 science fiction film co-produced [v. 合拍(电影)] and directed by Steven Spielberg, written by Melissa Mathison and starring Henry Thomas, Robert MacNaughton, Drew Barrymore, Dee Wallace and Peter Coyote. It tells the story of Elliott (played by Thomas), a lonely boy who befriends (v. 帮助 待人如友) a friendly alien, dubbed E.T., who is stranded (adj. 束手无策的) on Earth. Elliott, and his siblings help the alien return home, while attempting to keep it hidden from their mother and the government. The concept for E.T. came from an imaginary friend Spielberg created after his parents' divorce. When work on Night Skies stalled (v. 停止 延迟), Spielberg met screenwriter (n. 电影剧本作家) Melissa Mathison, whom he hired to pen the script for E.T. The film was shot from September to December 1981 in California on a budget of \$10.5 million. To facilitate (v. 促进 推动) convincing emotional performances from the young cast, the film was shot in roughly chronological order (年月日次序). The film was an enormous box office hit, surpassing Star Wars to become the most financially successful film released to that point. Critics acclaimed (vt. 称赞) it as a timeless (adj. 永恒的) story of friendship, and it is considered one of the greatest films ever made. The alien became the subject of analogies for Jesus. The film was rereleased in 1985 and 2002, with altered special effects (n. 特技 特效) and additional scenes for the 2002 version. Spielberg believes it epitomizes (v. 象征) his work.

**Chandler** :Joey 'You've seen this movie before, E.T. goes back home.

**Joey:** What? (not sure of what to say)Oh, no, I forgot (grabs a tissue)

**Phoebe:** Oh y<sup>u</sup> know what<sup>u</sup>s sadder than this? *Bambi*. I cried for three days with that movie. No wait two! Because on the third day my mother killed herself so I was partly crying for that.

The fifth animated feature in the Disney animated features canon, the film is based on the 1923 book *Bambi, A Life in the Woods*(n. 森林) by Austrian(adj. 奥地利的) author Felix Salten. The main characters are Bambi, the young prince of the forest, his parents (the Great Prince of the forest and his unnamed mother), and his friends Thumper (a white nosed rabbit), Flower (a skunk[n. 臭鼬]), and his childhood friend and future mate, Faline (also a white-tailed deer[n. 白尾鹿]). For the movie, Disney took the liberty of changing Bambi's species into a White-tailed deer to visually emphasize him against the colored(adj. 有色的) backgrounds, since he is a Roe Deer in the book.

**Chandler:** (totally not crying) Well see now that I can see crying over, but *Bambi* is a cartoon!

Its themes include Lawrence's emotional struggles with violence in war (especially the conflicts between Arabic tribes and the slaughter of the Turkish army), his personal identity ("Who are you?" is a recurring line throughout the film), and his divided allegiance(n. 忠诚) between his native Britain and its army, and his newfound comrades(n. 同志 伙伴) within the Arabian desert tribes. It was created by writer-director Joss Whedon under his production tag, Mutant Enemy. The series narrative follows Buffy Anne Summers (played by Sarah Michelle Gellar), the latest in a line of young women chosen by fate to battle against vampires (n. 吸血鬼), demons, and the forces of darkness. Like previous slayers, Buffy is aided by a Watcher, who guides and trains her. Unlike her predecessors (n. 前辈), Buffy surrounds herself with a circle of loyal friends who become known as the "Scooby Gang." The series usually reached between four and six million viewers on original airings. Although such ratings are lower than successful shows on the "big four" networks (ABC, NBC, CBS and Fox), they were a success for the relatively new and smaller The WB Television Network. Reviews (n. 评论) for the show were overwhelmingly positive, and it was ranked #41 on the list of TV Guide's 50 Greatest TV Shows of All Time. The WB network ceased operation on September 17, 2006 after airing an "homage" (n. 致敬 尊敬 敬意) to their "most memorable series", including the pilot episodes of Buffy and its spin-off, Angel. Buffy's success has led to hundreds of tie-in (<美>周边产品的 搭卖的) products, including novels, comics, and video games. The series has received attention in fandom (n. 影迷 运动迷), parody (n. 拙劣的模仿), and academia (n. 学术界), and has influenced the direction of other television series.
